

 RELEASE HISTORY

Altair Monarch

Version 2021.0

Monarch Classic

Issue ID	Resolved Issue
MOD-3444	Selecting an existing file to append to during export prompts a warning asking if you want to replace the file.
MOD-3540	SAPEXport doesn't follow default increment of Export Name
MOD-3688	Cannot import data when using CData SparkSQL ODBC
MOD-3690	Table Design - Formula Field / Filter - Ctrl+MWheel is failing to zoom the formula editor while it has focus
MOD-3727	When output file is a spreadsheet, "Show Tables" incorrectly shows sheet names in addition to named ranges.
MOD-3746	Floating traps: When replacing sample text, mask characters at the beginning of the line do not move with the rest
MOD-3750	Expression Search in Table view will sometimes fail to match on the last row of the table
MOD-3751	Expression Search in Table will sometimes fail when null values are present
MOD-3764	Find In Table in Report View doesn't function when Table View isn't loaded
MOD-3787	Summary doesn't display properly after deleting another summary
MOD-3802	Summary fails to display properly after changing a value in a specified values key
MOD-3805	Improve the error message that is displayed when file paths inside of a Workspace get broken due to sources being moved
MOD-3872	Exporting Column Headers only to PDF produces an empty PDF file
MOD-3873	Table Filters - Checkboxes disabled after selecting option "Select rows according to their uniqueness .."
MOD-3876	Selected Report Font Not Persisted
MOD-3877	Value filter having no specified values and 'exclude rows' options produces no rows
MOD-3881	Monarch Utility - Missing description text in Clear Credentials options
MOD-3898	Crash - Filtered table grid crashing in certain instances
MOD-3904	Hang when creating a template whilst a high number of Report Lines are selected for the sample
MOD-3908	Prompt setting for saving PDF passwords may prompt regardless of password
ENHANCEMENT	Report Search is now cancellable
ENHANCEMENT	Summary build caching optimizations
ENHANCEMENT	Enhanced security for Named Pipe communication with Data Prep Studio

Monarch Classic

Issue ID	Resolved Issue
ENHANCEMENT	Show warning dialog when "Snap Text Left" and "Snap Text Up" PDF options are checked
DEPRECATED	Panopticon Designer Export
DEPRECATED	Knowledge Hub Integration in Monarch Utility

Data Prep Studio

Issue ID	Resolved Issue
DPS-1547	Define Merge dialog resize disappears after shrinking
DPS-1555	Row limit selection not showing on return visits when set to 0
DPS-1582	Obscured error message when exporting to Microsoft Access
DPS-1584	Missing error message for Qlik and Tableau export
DPS-2042	Invalid network password error when opening a Project which has a web reference for a file
DPS-2334	Add Change to a Group is not working as expected
DPS-2433	Renaming Column Behavior is inconsistent.
DPS-2452	Column that contains negative decimal value displays incorrect value
DPS-3819	Floating traps: When replacing sample text, mask characters at the beginning of the line do not move with the rest
DPS-6652	Cannot import data when using SparkSQL ODBC
DPS-6762	'Failed to authenticate with provided credentials' error when opening a workspace with Box Cloud Storage
DPS-6832	Dropping a report onto a Model node erases all passwords from all files under the Model node
DPS-6887	Change or setting Filter Value can cause an error after clicking OK button
DPS-6908	Login Failed error dialog appears when going to "Edit Table Info" of an inaccessible IBM Cloudant table.
DPS-6913	ServiceName value is still displayed in Oracle Connection dialog even after including it in the user-defined sensitive parameter list
DPS-6940	Report Design: Changing some types of templates during search can terminate the report search procedure
DPS-6957	A text report file may be locked after opening in Report Design, searching, then canceling

Data Prep Studio

Issue ID	Resolved Issue
DPS-6969	The values in column-expanded array structure column are not displayed in Preview Data of the MongoDB Connection dialog
DPS-6972	HTML Explorer - Window can get stuck behind main window
DPS-6989	Conversion Options fail to apply to current Workspace if the user also selects to apply Display Options before confirmation
DPS-6995	OLEDB - cropped label in Date Time section
DPS-7000	Workspace Settings - Conversion Options fail to apply to current tables if the user selects apply to tables
DPS-7004	Excel worksheet design not correctly handling formulas with names defined in Excel Name Manager
DPS-7015	Time interval settings not persisted correctly
DPS-7023	File view nodes do not display search highlight in the navigation panel
DPS-7052	Other Connection Options textbox is missing in the JIRA Connection dialog
DPS-7081	The NOT state of trap characters can be lost after replacing sample text
DPS-7151	Floating trap 'Shift to match sample' option not always available
DPS-7171	Naming a Summary, "No Summary" causes the entire Summary bar to disappear
DPS-7228	Report Design: Hitmap may become blank after multiple quick Model edits
DPS-7247	Unpivot Selected Columns mode does not sufficiently limit the displayed size of its error message when many columns go missing
DPS-7267	Filters for character data type in Box Cloud connection dialog is not working
DPS-7268	Error encountered when using 'Greater Than Equal' and 'Less Than Equal' for Date data type in Box Cloud Storage Connection dialog
DPS-7287	OleDb and Odbc export behavior with Null values are not consistent with Monarch Classic
DPS-7305	Combine Tab- Children of multi-file tables should not be drag-able as they are not eligible for joining
DPS-7334	Crash when editing Monarch Server table info when dates are unchecked on a machine with German regional settings
DPS-7349	Connectors: Preview grid style is different for New and Edit connections
DPS-7365	Library dialog: Error message overlaps grid headers
DPS-7401	Possible crash when deleting a table which is part of a join in Join Configuration
DPS-7405	Metadata columns button content is not centered in Change History

Data Prep Studio

Issue ID	Resolved Issue
DPS-7408	Connectors: Fetch Database list is not sorted
DPS-7414	SparkSQL Connector may hang when clicking Preview Data
DPS-7484	Error when clicking on JSON or XML file nodes in table tree
DPS-7491	Report Design: Field editor does not scroll at all when editing a start/end region template.
DPS-7492	No columns are imported when converting a Monarch Project which uses the Modern Excel engine
DPS-7513	Report Verify - Dotted box does not scroll properly with the fragments it surrounds
DPS-7531	Projects import with all columns despite which columns are actually selected in the project
ENHANCEMENT	Override Column Types when importing Excel as a database
ENHANCEMENT	Various Report Design improvements
ENHANCEMENT	Automatically sync columns with source data on load or refresh for Excel & Delimited Text inputs
ENHANCEMENT	Show warning dialog when "Snap Text Left" and "Snap Text Up" PDF options are checked
ENHANCEMENT	Enhanced security for Named Pipe communication with Monarch Classic
NEW FEATURE	PDF Table Extractor incorporated into Data Prep Studio
NEW FEATURE	Named Filters (and importing definitions from Monarch Classic Models)
NEW FEATURE	Cleansing Macros
NEW FEATURE	Command Line Automation interface (Altair Units or with special license)
NEW FEATURE	Snowflake Connector (Note: Java Virtual Machine (JVM): Java SE 8 or higher (LTS version), including Oracle JDK and OpenJDK distributions.)
NEW FEATURE	ServiceNow Connector
DEPRECATED	Panopticon Designer Export
DEPRECATED	Knowledge Hub Integration in Monarch Utility
