Feature / Enhancement / Issue ID	Description / Resolved Issue
No new features, enhancements, or resolved issues	

Data Prep Studio	
Issue ID	Resolved Issue
DPS-9687	Swapping preview sources for local file is substantially slower than it previously was in version 2023.0.
DPS-9744	Change "Connecting"/"Trying to connect..." dialog to "Loading..." to more accurately reflect that the operation taking place is initializing preview data.
DPS-9777	Application may crash if a filter change is dragged over a table.
DPS-9857	Command line interface - version string unnecessarily printed in output.
