

 RELEASE NOTES

Altair[®] Inspire[™] Form 2022.3

New Features and Enhancements 2022.3

The Inspire Form 2022.3 release includes the following new features and enhancements.

Feasibility

FLD Run Options

FLD Run Options previously only available in Tryout are now also available in Feasibility and can be specified in Inspire Form General Preferences.

Trim Angle

Blank Nesting calculations times are improved by the removal of the automatic contouring of trim angles. It is still available in the Run dialog as an option for users.

Nesting Overlap

Blank Nesting also includes the option to overlap, which is off by default, but can be selected in the analysis to study material utilization.

Tryout

Springback Tools

The Springback operation has three new additional tools that can be configured for its analysis: clamps, pins, and gravity.

Learn More About Inspire Form
